## WORK EXPERIENCE

### Full Stack Developer | Laravel Developer
Foster Hartley UK (Remote)

*10/2022 - 01/2025*

*Tasks*
- Developed and maintained **scalable web applications** using Laravel and MySQL, improving client operational efficiency.
- Designed and integrated **REST APIs** for seamless frontend-backend communication.
- Managed deployment of the project on server 100%.

### Laravel Developer
Kanon Health Germany (Remote)

*01/2022 - 08/2022*

*Tasks*
- Work on a **patient management system** with Laravel and node.js, enabling real-time data tracking for 1000+ users.
- Optimized database queries for real-time chatting functionality one-to-one and group chat. Here we also use socket.io for getting real-time response on both sides.
- Collaborated with frontend developers to create **dynamic UIs** using Blade templates and JavaScript.

### Intern
Onsky Solution S/W Kacha Paka, Kohat

*10/2020 - 12/2021*

*Tasks*
- Started with **HTML/CSS/Bootstrap** to build responsive landing pages, later advanced to **JavaScript/jQuery** for interactive features.
- Implemented CRUD operations for Laravel projects, **reducing data processing time by 60%**.
- Fixed frontend-backend integration bugs.

## EDUCATION

### BS'CS'(Hons)
Preston University Kohat Campus KPK

*2020*
